You are going to type out a Works Cited page in order to practice the skills needed to properly cite sources in MLA format. You will practice with both web and print sources. On this assignment, I will give you example entries; this information is also available in your handout on MLA citations and at the following web page: http://owl.english.purdue.edu/owl/resource/747/05/.

Usually the MLA header is contained on the first page of the essay; however, for this assignment put the MLA header at the top of the page, before the title.

Remember that an MLA Works Cited page has the following qualities:

- Has the title “Works Cited” in the center of the page
- Entire document is double-spaced
- Has a page number preceded by the author’s last name (Ex: Barry 1)
- Each entry has a hanging indent
- Organized in alphabetical order

Below you will find basic formats and example citations for different types of sources.

**Basic Book Format**
Lastname, Firstname. Title of Book. Place of Publication: Publisher, Year of Publication.
